IRI ESCALATION MATRIX

WHAT HAPPENS INSIDE INTENSIVE RESTORATIVE INTERVENTION · SAFE. RESPECTFUL. RESPONSIBLE.

STAGE	STUDENT BEHAVIOR	ADULT RESPONSE	STUDENT OUTCOME	FAMILY / ADMIN
0 STANDARD IRI	Assigned and on track.	IRI lead monitors work, the packet, accommodations, and the repair plan.	Finishes academic work, the Restore & Repair packet, and the repair.	Family called the day of assignment.
1 RESET	Off task, low-level arguing, minor refusal, testing limits.	One redirect, a choice, and a brief reset.	Back on track.	Staff documents.
2 ESCALATED	Repeated refusal, **profanity directed at another student**, sustained disruption.	Response adult called. Student moves to an individual workspace. Extra reflection assigned.	Stays in IRI and repairs both behaviors.	Call home right away; ParentSquare if no answer.
3 FULL-DAY EXTENSION	Keeps disrupting after Stage 2, or a new qualifying violation, including **profanity directed at an adult**.	Half day becomes a full day (both sessions). Admin notified.	Extra work and a second repair.	Family contacted again; same-day follow-up.
4 INTERVENTION REVIEW	Repeated IRI, or a full day that did not succeed.	Admin review and an intervention plan.	Re-entry and support plan before return.	Family conference. May lead to an MTSS Behavior Request for Tier 2/3 supports.
SAFETY OVERRIDE	Aggression, credible threats, serious harassment, major unsafe behavior.	Immediate admin and safety response.	May skip the stages.	Admin decides under school policy and student protections.

NOTES

- Half day = one session (morning in the cafeteria or afternoon in the media center). Full day = both sessions.
- Timing: assigned before 10:00, the student serves that afternoon; after 10:00, the next school morning.
- Parent nonresponse never raises the consequence. It triggers documented follow-up.
- Academic work and required accommodations and services continue at every stage.
- Repair is not complete until the selected repair is carried out and signed off. The person who received the repair confirms it was specific, genuine, and came with a clear plan.
- A harmed student is never required to take part in a repair or the sign-off; an adult signs instead. No face-to-face repair in bullying or harassment cases.
